Welcome to Curro!

Dear Parents and Guardians

Learners, parents, grandparents, our new families and those returning – welcome to Curro!

We are pleased and honoured to have been chosen, by you, to prepare your children to navigate their way through the world of learning and to provide the foundation for their life after school.

Curro Holdings strives to contribute towards the sustainable growth of South Africa and beyond by widening access to quality schooling across a spectrum of educational models – all of which are focused on producing young adults who can think for themselves, work hard, are innovative, prepared to make a contribution to society in a constructive way and who will, in turn, provide their own families with these values in the future.

An important part of our purpose is to integrate sports, cultural and extramural activities with academics so that learners grow into grounded individuals who are equipped to make discerning choices on the life issues they will face throughout their school career and the rest of their lives.

You are welcome, at any time, to join us as we learn and grow together during your children's time with us; we encourage and welcome parent involvement in our school communities or as members of your school's Parent Advisory Committee (PAC). We believe in the partnership between parents, the school and the learners to ensure the best outcome and experience for your children.

Please know that your children are in good hands and will be encouraged and cared for daily by our dedicated and committed staff.

We appreciate your trust and good faith and thank you for the honour of educating your children.

Kind regards

ANDRIES GREYLING

Foundation phase (Grade R to Grade 3)

Grade R

In Grade R we focus on an integrated play-based curriculum with specialised educational programmes:

- The phonological awareness programme which is explicitly taught in small groups and includes interactive games
- The Bazoo integrated literacy programme
- The NumberSense programme which is a learner-centred approach where problem-solving is the starting point
- Introduction to Robotics through Duplo Lego

Grade R is the bridge from the concrete world to the world of symbols and numbers in Grade 1.

Grade 1 to Grade 3

In these grades the focus is on perceptual development, exposure to relevant content, skills and knowledge which are required for further learning. We offer a vibrant, invitational atmosphere where the learners enjoy coming to school and where they acquire a love for learning that will sustain them throughout their school years. We acknowledge the potential in each learner to reach optimum ability; therefore, there is less emphasis on competitiveness and more emphasis on individual achievement. We create opportunities for personal growth in independence and responsibility so that learners can take up the challenge of being personally responsible and accountable for their actions in the intermediate phase.
